Welcome Message

Welcome to the Society of Behavioral Medicine’s 45th Annual Meeting & Scientific Sessions and thank you for attending!

This year’s theme of “Moving Behavioral Science Upstream” is reflected by an exciting lineup of speakers, sessions, and events. Here are some special highlights.

- A Welcome Celebration on Wednesday at 4 p.m., will include greetings from representatives of the state of Pennsylvania, a taste of Philadelphia, and a vibrant opening featuring the West Powelton Steppers and Drum Squad.
- Keynote and master lecture sessions will discuss how moving behavioral science upstream is integrated into research design, intervention design, national health guidelines, healthcare laws, public health decision-making, and systemic changes that advance health equity.
- An informative and thought-provoking presidential panel discussion on “NIH Funding Opportunities for Behavioral Research Promoting Health Equity: Panel Discussion with Program Officials,” happening Friday at 2 p.m.
- The return of the Making Connections Luncheon, a special opportunity Friday at noon for individuals under-represented in behavioral science to network with each other and SBM leadership.
- A conference environmental responsibility program. Find out how we are increasing efforts to be green, and how you can win prizes for helping us. More info at www.sbm.org/meetings/conference-environmental-responsibility.

We hope that you leave this year’s conference energized by new or deepened connections and inspired to address upstream factors in policies, institutions, neighborhoods, and communities that impact our behavior and change health for the better.

Thank you for choosing to spend your time with us. We wish you all a productive, healthy, and inspiring conference!
