1. 40th Anniversary Review

Dr. Gellman updated the group that 16 previous award winners were contacted to be featured in a “Where Are They Now” poster series to be displayed at the meeting. Dr. Pagoto and Dr. Gellman are wrapping up an SBM timeline along with SBM Staff, who is currently sorting through the data.

Currently only three videos have been submitted for the feature during the anniversary presentation, but the plan was to have at least 20 by Friday, January 11. SBM staff will send the committee information to send nudges for video submissions, specifically from the Wisdom Council.

2. Saturday Events

Currently there are not yet any public registrations submitted, but 15 SBM members have signed up to staff the Health Fair. The committee will re-evaluate February 6. SBM Staff will be sending forth another email to the committee and Local Arrangements to reach out to Public Advocacy groups in the area to encourage registration.

Dr. Gonzalez suggested an updated description of the Lab Management session, which SBM staff will update on the website and on the registration forms. While pre-registration won't be required, it will be important to predict how many will attend the session.
