### **Update on Poster Mentor program**

Dr. Zarrett explained a challenge that has arisen for the Poster Mentor program: there are more mentors available on Thursday evening than there are students who have confirmed their interest in the program. Council determined the following action item through discussion and consensus.

Action item: Ms. Linc will send out one last email, which explicitly states that the student interested an interest in the program when they submitted their abstract, to SBM student/trainee members who indicated an interest in the program along with non-member students

### **Update on Meet the Presidents session**

Dr. Huebschmann gave an update on the progress being made with identifying junior faculty members for the Meet the Presidents event. Through discussion and consensus the council decided that if a past-president asks for assistance identifying a junior faculty person that a member of the ETCD Council will join the table or the council will recommend someone outside of the council.
