       Wayne Velicer
       Paul K. Courtney
       Tenbroeck Smith
       Qing Zeng
       Timothy Hogan

Goal 1

a. Create a taxonomy of theories and constructs
b. Examine how they relate to each other
c. Map to existing measures such as GEM

Goal 2

a. Computer interpretable ontology focused on health behavior
b. Able to implement with EHR interventions

Minutes from 1/25/12 Meeting

ACTION Items:

1. Look into conference grant program announcement and deadlines

   Standard application deadlines: April 12, August 12, and December 12
   http://grants.nih.gov/grants/funding/r13/

2. Talk to Brad Hesse about GEM project (see attached for GEM article)
3. Find table in intervention mapping book (see attached)
4. Invite more people into group
5. Next meeting (date?)
   a. Meeting reminder for members
   b. Discuss funding
   c. Clearly state goals
