Thank you for attending the Society of Behavioral Medicine’s 41st Annual Meeting & Scientific Sessions!

We have a fantastic lineup of plenary speakers, educational sessions, and networking events arranged around the theme of “Accelerating Our Science.” The meeting builds upon our public- and policy-oriented themes of past meetings while particularly focusing on the future science of behavioral medicine. Our aim is to start the conversation on how we can accelerate our science to address tomorrow’s health challenges. The meeting will feature inspiring presenters who will discuss ways to advance our science and its application by addressing key societal issues, such as health inequities, the aging population, climate change, and the opioid epidemic. Our goal is to advance attendees’ vision for behavioral medicine and what we all can accomplish by accelerating our own research through cutting-edge approaches to team science, research design, and causal inference; by using technological advances, including artificial intelligence; and by innovating how we think about aging and equity. We hope that you will leave more prepared and inspired to accelerate the impact of your work in behavioral medicine. San Francisco is the perfect location to delve into world-changing advances in science and technology.

Building off the success of past years’ meetings, this meeting is an active conference, and we hope you’ll join us in standing during sessions, taking the stairs, and walking around to explore this vibrant city. The Local Arrangements Committee has worked hard to develop a new “active activity,” the Social Media Scavenger Hunt, which hopefully will motivate you to become an active meeting attendee.

The meeting will start Wednesday evening with a welcome and opening keynote by Dr. Kara Hall on team science, immediately followed by a first time attendee meet and great, and the opening poster session. We do hope that you will plan to attend Wednesday evening. And we strongly encourage you to stay through Saturday to hear our closing keynote on successful aging by Dr. Laura Carstensen, attend our business meeting to meet the incoming president, and take part in career-advancing networking opportunities for students, industry partners, and early- and mid-career members!

Wishing you all a productive, healthy, and inspiring conference!
Open Science at SBM

Scientists in many fields are using a variety of open science practices to increase the transparency, reproducibility, and verifiability of their work. This year, SBM recognizes those who utilized open science practices such as pre-registering study designs and analysis plans, and sharing study materials or data in via an open access repository. Keep an eye out for the following badges next to presentations in the program and throughout the meeting.

- Preregistered Design Badge
- Preregistered Design+Analyses Badge
- Materials Badge
- Open Data Badge

This year, SBM’s meeting is also registered in the Center for Open Science meetings database. Attendees are encouraged to visit https://osf.io/view/SBM2020/ to upload their presentation slides and posters, and to view the work uploaded by others.

Badges are licensed under Creative Commons CC-BY. Source: Open Science Collaboration (https://osf.io/vmrgu/wiki/home/).

Works in Progress (WIP) and Lessons Learned (LL)

**WIP:** “Works in Progress” presentations are presentations that highlight the rigorous design and methods of a large clinical trial, for which data are not yet available.

**LL:** “Lessons Learned” presentations are presentations that provide tips for other researchers in pursuing certain types of research or practice protocols. For example, they may detail recommended steps of a protocol, issues that arose in carrying out these steps that might be commonly encountered, and tips/tricks for handling those obstacles/barriers.

WIP and LL presentations can be included in a panel discussion, symposium, or rapid communication poster, but are not included in regular paper or poster presentations, which require actual data and results.
Continuing Education Credits

Physicians & Nurses

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and SBM. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation Statement – Amedco LLC designates this live activity for a maximum of 26.50 AMA PRA Category 1 Credits™ for physicians and 26.50 contact hours for nurses. Learners should claim only the credit commensurate with the extent of their participation in the activity.

Nurse Practitioners

The American Association of Nurse Practitioners (AANP) recognizes the Accreditation Council for Continuing Medical Education (ACCME) and the American Nurses Credentialing Center (ANCC) as approved accreditors and allow reciprocity for AANPCP continuing education credit.

Psychologists

This course is co-sponsored by Amedco and SBM. Amedco is approved by the American Psychological Association to sponsor continuing education for psychologists. Amedco maintains responsibility for this program and its content. 26.50 hours.

- The following state boards accept courses from APA providers for Counselors: AK, AL, AR, AZ, CA, CO, CT, DC, DE, FL, GA, HI, IA, ID, IL, IN, KS, MD, ME, MO, NC, ND, NH, NE, NJ, NM, NV, OK, OR, PA, RI, SC, SD, TN, TX, UT, VA, WI, WY
