

ICBM 2018

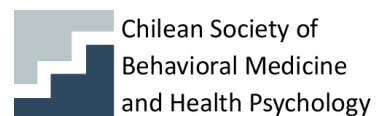

Santiago Chile

November 14th to 17th

15th International Congress of Behavioral Medicine

Organized by

Main themes

The Congress will focus on the following themes:

- Innovative behavioral interventions that prevent disease and alter its natural progression.
- Translation of behavioral medicine research into practice.
- Novel approaches for supporting health promotion research and implementing evidence-based interventions.

The official language of the 2018 Congress is English but all sessions will have Spanish simulcast.

El lenguaje oficial del Congreso es Ingles pero todas las sesiones serán traducidas al Español.

VENUE

InterContinental Santiago is located in the heart of the most important financial district of the Chilean capital near restaurants, biking and jogging paths, parks and the largest shopping center in Latin America. It also has easy access to public transportation (bus, subway) and highways as gateways to the nearby mountains, wine regions or coastal cities.
